PROFILE

MERN Stack Developer with hands-on experience in building real-world applications like e-commerce and event management platforms. Skilled in React.js, Node.js, and MongoDB, with a focus on creating responsive and user-friendly interfaces. Looking for an opportunity to start my career and contribute to a growth-oriented team.

PROJECTS

E-commerce (Self Project)

Full Stack Web Developer

- Developed a full-stack e-commerce platform with authentication, cart, and order management features
- Implemented user login, registration, cart, and order features
- Developed REST APIs and integrated frontend with backend
- Designed responsive and user-friendly interfaces

Event Management platform(Group Project)

Full Stack Web Developer

- Collaborated with a team to develop a full-stack Event Management website
- Built frontend using React.js and designed responsive UI
- Developed backend APIs using Node.js and Express.js
- Worked with MongoDB for database management
- Coordinated with team members using Git and GitHub
